PROFESSIONAL SUMMARY

Full-Stack Web Developer and 2026 BSCS (Software Engineering) graduate with hands-on experience building responsive, custom websites. One year of remote work at InfinityRefinder building AI-assisted websites with a focus on performance, and a three-month internship at Poplygens delivering multiple projects. Skilled in full-stack development, UI/UX design, and performance optimization, with a portfolio of live deployed projects.

EXPERIENCE

Web Developer (Remote) - InfinityRefinder

1 Year

- Designed and built custom websites using AI-assisted development tools and workflows.
- Improved website performance through optimization of page speed, responsiveness, and user experience.
- Delivered tailored web solutions based on client requirements, from layout to deployment.

Web Development Intern - Poplygens

Jul 2026 - Sep 2026

- Built multiple web development projects during a three-month internship, applying full-stack concepts to real-world tasks.
- Applied UI/UX principles to create clean, user-friendly interfaces and assisted with project delivery from concept to deployment.

PROJECTS

RackPro Solutions - [rackpro-solutions.vercel.app](#) - Business website for a racking and storage solutions company.

Food Rush - [food-rush-delta.vercel.app](#) - Food delivery web application with a modern, responsive interface.

Isha's Kitchen - [isha-kitchen.vercel.app](#) - Restaurant and kitchen website showcasing menu and brand presentation.

FolioPage - Personal portfolio project built to present work and skills.
